

## CONTINUING PROFESSIONAL AND PERSONAL DEVELOPMENT

Since joining Downe House I have found there has always been an emphasis on nurturing and developing staff to enable them to achieve their potential, in the classroom but also beyond this, as there is acknowledgement of wider professional development for staff. To enable this, the School provides regular CPD sessions for all staff, as well as supporting staff with their own individual career pathway, whether this is for those seeking a more pastoral route or academic.

As well as enabling me to attend subject-specific CPD sessions, the School funded and fully supported me with my MA in Education and Leadership, and upon completion are helping me to look at how I can utilise what I have learnt to benefit not only the School but also my own career development.
